

Halogen reflector

13096 ELH 300W GY5.3 120V 1CT/24

Philips' halogen reflector lamps offer the ideal no-fuss solution for a wide variety of medical, projection and scientific illumination systems. Their proven reliability makes them ideal for retrofit installations. The burners are precisely aligned for optimal light performance. Dichroic reflectors ensure heat dissipation towards the back of the optical system, which helps the optical system remain within temperature limits. A special blue-filter version blocking out unwanted light above 700 nm is available for dental curing applications. In addition, you get all the proven advantages of halogen technology such as a CRI of 100 – the same as natural sunlight for the best possible color rendering. Halogen lamps also create a comfortable warm white light, and they maintain their high lumen output with almost no lumen reduction throughout their lifetime.

Product data

• General Information

Cap-Base GY5.3 [GY5.3]
Philips Code 13096
Ansi Code ELH
LIF Code -

Operating Position S90 [Standing +/-90D or Base Down

(BDH)] Projection s 35 h

Life To 50% Failures (Nom)

• Light Technical

Main Application

Luminous Flux (Rated) (Nom)
Correlated Color 3350 K
Temperature (Nom)
Color Rendering 100
Index (Nom)

Operating and Electrical

 Power (Rated)
 300 W

 (Nom)
 120 V

Controls and Dimming

Dimmable Yes

Mechanical and Housing

Bulb Material Quartz-UV Open Reflector Finish Facetted Filament Dimensions -WxH

• Luminaire Design Requirements

Bulb Temperature 900 °C (Max)
Pinch Temperature 350 °C (Max)
Working Distance 152.4 mm
