

# Maxos fusion

## LL500E IPT-CG

Maxos fusion Electrical - Infrared programming transmitter with commissioning guide (booklet)

Maxos fusion is an adaptable LED trunking system that offers an excellent quality of light while more than halving energy costs compared to fluorescent lamps. For retail applications, a family of linear panels, non-linear modules and a spot portfolio can be smoothly integrated into the track backbone to let your merchandise sparkle and stand out. For industrial applications, the focus is on reducing installation and maintenance cost by using fewer linear panels. With the electrical set-up of up to 13 wires, the freedom to position these fixtures as required and the integration of other services/third-party hardware, the system allows you to reduce ceiling clutter. It can also be easily re-configured to accommodate future lay-out changes. The infrastructure is enabled to integrate sensors for data collection, giving you the opportunity to use insightful granular information to support your business.

### Product data

General information	
Protection class IEC	-
CE mark	CE mark
Material	-
Accessory color	Black
Product family code	LL500E [ Maxos fusion Electrical]
Operating and electrical	
Electrical accessories	Infrared programming transmitter with commissioning guide (booklet)
Input Voltage	- V

Input Frequency	- Hz
Mechanical and housing	
Dimensions (Height x Width x Depth)	NaN x NaN x NaN mm (NaN x NaN x NaN in)
Approval and application	
Ingress protection code	-
Mech. impact protection code	IK00 [ No protection]
Product data	
Full product code	871869637479599
Order product name	LL500E IPT-CG

## Maxos fusion

EAN/UPC - Product	8718696374795
Order code	910925864256
Numerator - Quantity Per Pack	1
Numerator - Packs per outer box	18
Material Nr. (12NC)	910925864256

Net Weight (Piece) 0.100 kg
