# **PHILIPS** Lighting

# GreenSpace

# DN462B LED11S/840 PSU-E C WH PCO P

GreenSpace, 9.7 W, D150 mm, 1150 lm, 4000 K, High-gloss reflector, Opal, IP20/54

GreenSpace is a perfect solution where customers want to strike the ideal balance between their initial investment and the cost of the installation during its lifetime while they are covering multiple applications. GreenSpace features the latest LED technology which enables extremely low power consumption. With its perfect fit you'll get the LED downlight that always fits and looks perfect at the same time. This perfect fit is available for cut out sizes from 150mm to 280mm which is the ideal solution for your renovation project. It saves the hassle, avoids time consuming and costly adaptor rings. GreenSpace is designed for Circular Economy with optimized performance, extended lifetime through upgradability and integration options, ease of customization, recycling and disassembly. Housing and rim are made with at least 55% recycled or mass-balanced bio-circular material, making it a conscious choice for those that want to contribute to a circular economy.GreenSpace can be connected to wireless systems to create a smart office lighting solution with optional integrated sensors as well.

#### **Product data**

| General Information      |  |
|--------------------------|--|
| Lamp family code         | LED11S [LED Module, system flux 1100 lm] |
| Light source replaceable | No                                       |
| Number of gear units     | 1 unit                                   |
| Gear                     | -  |
| Driver included          | Yes                                      |
| Service tag              | Yes                                      |
| Lighting Technology      | LED                                      |
| Value ladder             | Specification                            |
| Warranty period          | 5 years                                  |

| Sustainability rating              | Lighting for circularity |
|------------------------------------|--------------------------|
|                                    |                          |
| Light Technical                    |                          |
| Luminous Flux                      | 1,150 lm                 |
| Correlated Color Temperature (Nom) | 4000 K                   |
| Luminous Efficacy (rated) (Nom)    | 118 lm/W                 |
| Color rendering index (CRI)        | >80                      |
| Number of light sources            | 1                        |
| Beam angle of light source         | - degree(s)              |
| Light source color                 | 840 neutral white        |
|                                    |                          |

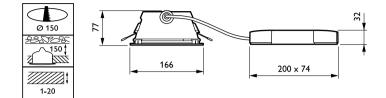

## GreenSpace

| Optic type                             | -                                     |
|--|---------------------------------------|
| Luminaire light beam spread            | 120°                                  |
| Unified glare rating CEN               | 25                                    |
|  |                                       |
| Operating and Electrical               |                                       |
| Input Voltage                          | 220-240 V                             |
| Line Frequency                         | 50 to 60 Hz                           |
| Initial CLO power consumption          | - W W                                 |
| Average CLO power consumption          | - W W                                 |
| Inrush current                         | 14 A                                  |
| Inrush time                            | 0.130 ms                              |
| Power Consumption                      | 9.7 W                                 |
| Power Factor (Fraction)                | 0.9                                   |
| Connection                             | Feed-through connector 3-pole         |
| Cable                                  | -                                     |
| Number of products on MCB of 16 A type | 65                                    |
| В                                      |                                       |
| Suitable for random switching          | Yes                                   |
| Protection class IEC                   | Safety class II                       |
| Total harmonic distortion              | 20 %                                  |
|  |                                       |
| Controls and Dimming                   |                                       |
| Dimmable                               | No                                    |
| Driver/power unit/transformer          | Power supply unit external (On/Off)   |
| Control interface                      | -                                     |
| Constant light output                  | No                                    |
| Maximum dim level                      | Not applicable                        |
|  |                                       |
| Mechanical and Housing                 |                                       |
| Housing Material                       | Polycarbonate                         |
| Reflector material                     | -                                     |
| Optic material                         | Polycarbonate                         |
| Optical cover material                 | Polycarbonate                         |
| Fixation material                      | -                                     |
| Housing Color                          | White                                 |
| Optical cover finish                   | Opal                                  |
| Reflector Finish                       | High-gloss reflector                  |
| Overall height                         | 77 mm                                 |
| Overall diameter                       | 166 mm                                |
| Ingress protection code                | IP20/54 [Finger-protected; dust       |
|  | accumulation-protected, splash-proof] |
| Mech. impact protection code           | IK06 [1 J]                            |
| Net Weight (Piece)                     | 0.600 kg                              |
|  |                                       |
| Emergency Operation                    |                                       |
| Energency Operation                    |                                       |
| Central Emergency                      | No                                    |

| Glow-wire test  | Temperature 750 °C, duration 30 s  |
|---|--|
| Flammability mark   | -  |
| CE mark   | Yes  |
| ENEC mark   | ENEC mark  |
| EU RoHS compliant   | Yes  |
| Performance ambient temperature Tq  | 25 ℃   |
| Remarks   | *-Per Lighting Europe guidance paper   |
|   | "Evaluating performance of LED based   |
|   | luminaires - January 2018": statistically  |
|   | there is no relevant difference in lumen   |
|   | maintenance between B50 and for example  |
|   | B10. Therefore, the median useful life (B50)   |
|   | value also represents the B10 value.   |
| Ambient temperature range   | -15 to +40 °C  |
|   |  |
| Initial Performance (IEC Compliant)   |  |
| Luminous flux tolerance   | +/-10%   |
| Initial chromaticity  | (0.38, 0.38) SDCM<3  |
| Power consumption tolerance   | +/-10%   |
| Standard Deviation of Colour Matching   | SDCM≤3   |
| (McAdam ellipse)  |  |
