

- UV-Confidence: UV-C disinfection technology is proven to destroy up to 99.9% of viruses, bacteria, spores, mould, and other harmful microorganisms
- UV-Certified: Quality OSRAM product tested and certified
- UV-Care: Enhance your cleaning routine to reduce the risk of viral and bacterial contamination
- UV-Clean: Silently purifies and circulates clean air
- UV-Convenient: This small, rechargeable battery powered device fits easily inside a handbag and most car cup holders for maximum portability
- UV-Clever: The ingenious hidden lamp design makes the AirZing UV-Compact suitable for use around people and pets, when safety guidelines are followed
- UV-Chic: Sleek, stylish and discreet design with aluminium silver finish
- UV-Clean environments: Ideal for use at home, in the car, at work, or any indoor space when used in close proximity
- UV-Coronavirus tested: Tests have shown UV-C light to be effective in neutralising SARS-CoV-2 (COVID-19)

Light is protecting AirZing™ UV-Compact

UV-Confidence
Powerful air purifier for your car and on the go

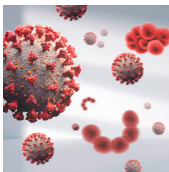

Light is OSRAM

Technical parameters

Part Number	AM381180055
Product Dimension	Ø 66 x 240 mm
Item Weight	0,5 kg
Color	Grey and Black
Material	Aluminum and ABS
Power Source	USB-C
Wattage	12 W
Number of Fan Speed	2
Recommended Room Size	up to 3 m ³
Air Volume	14 m ³ / h
Sound Level	Max. 38 dBA at highest fan speed
Item Package Quantity	1
Included Components	AirZing™ Compact Pro Air Purifier for air disinfection, USB Cable max 5 A length: 1m
Filter Included	No
Lamp Included	1x OSRAM PURITEC® HNS® 7W 2G7
Lifetime Lamp	8.000 hrs
Light Source Replaceable	No
Battery Cell Type	Lithium 18650 2x 3100 mAh
Batteries Included	Yes
Battery Life	Up to 1,5 hours 3,5 hours when fully charged and while charging at 5 V / 1 A 5,5 hours when fully charged and while charging at 5 V / 2 A 24 hours when fully charged and while charging at 5 V / 3 A
Battery Charging Time	2 hours at 5 V / 2 A, 5 hours at 5 V / 1 A
Manufacturer's Warranty	2 years

Focus features

UV-C light is an easy and effective way to eliminate up to 99.9% of viruses, bacteria, and other harmful microorganisms.

Tests have shown that the AirZing™ UV- Compact Family is effective in neutralising SARS-CoV-2 (COVID-19).

Clean air is important for our health, especially when it comes to children, the elderly, and the immunocompromised. UV-C light can help reduce the risk of viral and bacterial contamination.

Safety is extremely important since exposure to UV-C light is harmful to all living things, including people and pets. The AirZing™ UV-Compact is cleverly designed to coexist with human activity.* Its circular lamp fixture directs the UV-C light inwards to avoid unintended UV-C light release.

Contaminated air enters via air inlets on the side where it passes through UV-C light before being circulated back into the room.

*) Always adhere to safety guidelines

Application areas

With a purification radius of up to 1m (depending on the flow of air in the room) the AirZing™ UV-Compact is ideal for use at home, in the car, at work, or any indoor space—when placed in close proximity. This rechargeable battery powered device fits easily inside a handbag and most car cup holders.
