

# New GE LED Lamps – Switch to Save!

## LED Plug-in

New LED Plug-In replacement lamps from GE enable you to replace inefficient CFL lighting operated on electronic ballast, without the need for tools or a costly upgrade. LED Plug-Ins provide 2.5x the life of an average CFL and use only half the energy, delivering a more targeted light that requires fewer lumens and reduces waste.

- Easy installation – plug & play
- Low cost of operation
- 60% energy saving
- Long life

## GE LED T8 Premium Universal Tubes

The GE LED T8 Universal range offers safe, reliable and affordable energy saving alternatives to standard Fluorescent T8 tubes. Available in 60cm, 120cm and 150cm lengths, GE LED T8 Universals can be quickly fitted as a replacement into luminaires operating on electro-magnetic control gear or on electronic gear.

- 40,000 hours L70 rated lifetime
- High uniformity of light
- Environment friendly – no UV, no Hg
- Energy saving up to 60%
- High light output up to 3000 lm
