

Product portfolio changes at Philips in March

Philips Lighting again phased out a few products at the end of March – some of these with replacements.

It was announced some time ago – now certain lamps from Philips’ well-known, conventional product portfolio are finally being discontinued. For many of these there is a suitable LED alternative, but it’s the end of the line for a few.

We can still supply you with the discontinued types while stocks last, of course, and naturally we also have the new LED alternatives in our range – we’ll be happy to advise you!

The lamps that are being discontinued without alternatives are:

Fluorescent lamps

- MASTER TL5 HE Secura 14W/840 UNP/40 (8711500954763)
- MASTER TL5 HE Secura 28W/840 UNP/40 (8711500952158)
- MASTER TL5 HE Secura 35W/840 UNP/40 (8711500952196)

We can have lamps treated with a splitter-proof coating for you!

Special lamp

- 13096 ELH 300W GY5.3 120V 1CT/24 (8711500410573)

Moreover, as of 1 April 2018, the following discontinued lamps will only be offered in the alternative LED versions by the manufacturer.:

Fluorescent Lamps
